# Iron and Steel Engineer Index for 1984

## LIST OF AUTHORS

**A**

ABAROTIN, E. V. and SCHACHT, C. A.—"Structural behavior of teeming ladles lined with high-alumina refractories," Aug., p 33
ALLAN, J. D.—"Iron and steel technology and the marketplace," Dec., p 20
ANTHONY, K. and KNOX, T. J.—"Installation and operation of automatic shape control on the BSC Llanwern 4-stand tandem mill," March, p 31
AOYAMA, K., YANAZAWA, T., HIRAI, N. and TANAKA, T.—"Development of grooveless rolling for a billet mill," Aug., p 27
AUGUSTI, A. and FORNI, L.—"Roughing mills with cantilevered rolls," Dec., p 23

**B**

BAARE, R.-D., OVERGAARD, J. and RASMUSSEN, E.—"An eccentric bottom tapping system—18-months experience," July, p 27
BASEVI, B. and CASTAGNA, M.—"No. 1 blast furnace at Siderurgia Nacional, Seixal—A turnkey rebuild in record time," Aug., p 21
BECK, C. K., RAU, R. J. and BROWN, D. F.—"LTV Steel Campbell works: A world class 16-in. seamless mill," Dec., p 35
BEGGS, J. I. and TOURCHIN, R. W.—"Dofasco's new 68-in. hot strip mill: Planning, design and operating results," Sept., p T-111
BEITELMAN, L. and MULCAHY, J. A.—"Rotary electromagnetic stirring for continuous casting of billets and blooms," July, p 49
BLANCHARD, T. A. and SLEVIN, R. D.—"A more realistic thermal model of refractory lining performance," April, p 53
BONFIGLIO, A. J., PRELLWITZ, S. B. and SCHINDLER, D. G.—"Real time imaging and classification of hot steel surface features," Oct., p 49
BRAUER, H. and KAISER, W.—"A new mill for specialty steel precision bar products," June, p 72
BRAUN, H.-G. and MATHEWS, W.—"The KR process: A new development in ironmaking," Aug., p 41
BRENOT, M. A., MOREL, M., MONTASTIER, J. G. and CHABOUD, M. F.—"Quality control and production optimization in plate mills using the HYDROPLATE system," May, p 48
BRODSKY, L. D., ZIELINSKI, J., PERRAULT, G. E. and SCHMAUS, R. H.—"Commercial experience with diester based synthetic industrial lubricants," Dec., p 41
BROTZMANN, K., VON BOGDANDY, L., FRITZ, E. and SCHEMPP, E. G.—"Economics and technology of K-OBM and KMS compared to BOF with and without bottom stirring," May, p 21
BROWN, D. F., RAU, R. J. and BECK, C. K.—"LTV Steel Campbell works: A world class 16-in. seamless mill," Dec., p 35
BROWN, J. W.—"Growth of arc furnace steel expected to continue," April, p 88

**C**

CARLSON, E. P., MICHEL, A. and HARRIS, R.—"Control of Bethlehem's coke-oven battery A at Sparrows Point," Feb., p 25
CARTRIGHT, L. M., GORDON, R. A., HENN, H. J., KOLB, W. A., WHITFIELD, C. and FORNADLEY, R. J.—"AISE software portability project—Review of step 1 report," Aug., p 46
CASTAGNA, M. and BASEVI, B.—"No. 1 blast furnace at Siderurgia Nacional, Seixal—A turnkey rebuild in record time," Aug., p 21
CHABOUD, M. F., MOREL, M., MONTASTIER, J. G. and BRENOT, M. A.—"Quality control and production optimization in plate mills using the HYDROPLATE system," May, p 48
CHEFNEUX, L., FISCHBACH, J.-P. and GOUZOU, J.—"Study and industrial control of chatter in cold rolling," Nov., p 17
CONROY, T. M. and MITCHELL, J. E.—"Management decision support through end-user data analysis," Jan., p 53
CUNNINGHAM, J. F. and DAUBY, P. H.—"Four thousand heats with bottom stirring at J&L," April, p 49

**D**

DAUBY, P. H. and CUNNINGHAM, J. F.—"Four thousand heats with bottom stirring at J&L," April, p 49
DAVIS, T. R., FRADENECK, R. J. and ZACKEY, R. T.—"Low-cost, dynamic predictive maintenance system at Bethlehem Steel," April, p 43
DeLISIO, A. J., SCHUMACHER, T. F. and ZUGATES, T. B.—"Design considerations for continuous caster water systems," Feb., p 34
DZERMEJKO, A. J. and SHELLENBERGER, D. J.—"Dome combustion stoves—An engineering and operational analysis," Dec., p 47

**E**

ECK, H. L., WAGNER, F. and MILLERSCHOEN, C. W.—"Feed forward control system for a hot strip mill," Oct., p 44
ECONOMOPOULOS, M., SIMON, P. and NILLES, P.—"Tempcore: A new process for the production of high-quality reinforcing bars," March, p 53
EIBE, W. W.—"Inflatable crown rolls—Characteristics, design and applications," Sept., p 20 .
ELLIS, R., RAO, T. R. S., UPTON, E. A. and RUPAR, D. L.—"Optimization of ingot heating in soaking pits," Oct., p 34

**F**

FAULKNER, L. L.—"Eliminating pulsations in blast furnace stoves and boilers," Nov., p 34
FISCHBACH, J.-P., CHEFNEUX, L. and GOUZOU, J.—"Study and industrial control of chatter in cold rolling," Nov., p 17
FISCHER, H.-J. and LEVIN, D. A.—"Coke-oven wall repair—Types and methods," May, p 28
FLETCHER, B.—"Caster hydraulics at Stelco's Lake Erie works," Oct., p 39
FORNADLEY, R. J., CARTRIGHT, L. M., GORDON, R. A., HENN, H. J., KOLB, W. A. and WHITFIELD, C.—"AISE software portability project—Review of step 1 report," Aug., p 46
FORNI, L. and AUGUSTI, A.—"Roughing mills with cantilevered rolls," Dec., p 23
FRADENECK, R. J., DAVIS, T. R. and ZACKEY, R. T.—"Low-cost, dynamic predictive maintenance system at Bethlehem Steel," April, p 43
FRITZ, E., VON BOGDANDY, L., BROTZMANN, K. and SCHEMPP, E. G.—"Economics and technology of K-OBM and KMS compared to BOF with and without bottom stirring," May, p 21
FROMMANN, K. M., MEUTHEN, B. and PAPPERT, W.—"New process for 1-side hot dip galvanizing of steel sheet," May, p 35
FUJIKAWA, Y., NAKAGAWA, R., YOSHIMATSU, S. and IWASAKI, T.—"Construction and operation of a new continuous steelmaking facility," June, p 57
FUJIMORI, Y., INAZAKI, K., NANGAI, T., KUSANO, Y., OKUNO, Y. and KIMURA, H.—"Blast furnace burden profile measurement by a giant pulse YAG laser," Jan., p 28
FUJITA, S., ISHIHARA, K., NISHIHARA, M. and WATANABE, K.—"Modern electrolytic galvanizing line at Sumitomo," Dec., p 28

**G**

GEISER, L. H., HENNINGER, J. L. and RESH, D. P., Jr.—"Closing in on arc furnace emissions at Carpenter Technology," March, p 26
GERBER, T. L. and HUZYAK, P.—"Design and application of hydraulic gap control systems," Aug., p 13
GIGLIO, F. A. and STANCKER, J. S.—"Installation and operation of a high-performance roll grinder," Feb., p 32
GINZBURG, V. B.—"Dynamic characteristics of automatic gage control system with hydraulic actuators," Jan., p 57
GIPKO, M. A., JAYARAMAN, V., KOINIS, F. J. and WHITEMAN, G. W.—"Jet impingement radiation (JIR) heating of steel strip," Jan., p 43

GORDON, R. A., CARTRIGHT, L. M., HENN, H. J., KOLB, W. A., WHITFIELD, C. and FORNADLEY, R. J.—"AISE software portability project—Review of step 1 report," Aug., p 46
GOUZOU, J., CHEFNEUX, L. and FISCHBACH, J.-P.—"Study and industrial control of chatter in cold rolling," Nov., p 17

H

HAISSIG, M.—"Horizontal continuous casting—A technology for the future," June, p 65
HARBECK, R. B.—"Analysis of rolled bar profile from scanning laser gage diameter readings," May, p 54
HARRIS, R., MICHEL, A. and CARLSON, E. P.—"Control of Bethlehem's coke-oven battery A at Sparrows Point," Feb., p 25
HARRIS, W. H., SOMERS, R. R., PALLONE, G. T. and McDERMOTT, J. F.—"Verification and applications of a model for predicting hot strip profile, crown and flatness," Sept., p 35
HAUSEN, G. and WOKUSCH, H. T.—"A-c main drives for rolling mills," Nov., p 27
HAYNES, C. G. and STANCKER, J. S.—"Optical measurement procedure to determine position of rolls and chocks in rolling mills," Jan., p 35
HENN, H. J., CARTRIGHT, L. M., GORDON, R. A., KOLB, W. A., WHITFIELD, C. and FORNADLEY, R. J.—"AISE software portability project—Review of step 1 report," Aug., p 46
HENNINGER, J. L., GEISER, L. H. and RESH, D. P., JR.—"Closing in on arc furnace emissions at Carpenter Technology," March, p 26
HERLITZ, H. G., JOHANSSON, B. and SANTEN, S. O.—"A new family of reduction processes based on plasma technology," March, p 39
HIRAI, N., YANAZAWA, T., TANAKA, T. and AOYAMA, K.—"Development of grooveless rolling for a billet mill," Aug., p 27
HOGAN, W. T.—"World steel: On the road to recovery?," Jan., p 25
HOLMGREN, N. S., KELVESJOE, K. H., PERSSON, S. O., SIXTENSSON, P. S. and PARKER, H. W.—"Revamping the 72-in. hot strip mill at SSAB, Domnarvet," Sept., p 45
HRUSKOCI, J. A. and ORTIZ, A.—"Application of computers to the retrofitting of rolling mills," April, p 58
HUZYAK, P. and GERBER, T. L.—"Design and application of hydraulic gap control systems," Aug., p 13

I

INAZAKI, K., NANGAI, T., KUSANO, Y., OKUNO, Y., FUJIMORI, Y. and KIMURA, H.—"Blast furnace burden profile measurement by a giant pulse YAG laser," Jan., p 28
ISHIHARA, K., NISHIHARA, M., WATANABE, K. and FUJITA, S.—"Modern electrolytic galvanizing line at Sumitomo," Dec., p 28
IWASAKI, T., NAKAGAWA, R., YOSHIMATSU, S. and FUJIKAWA, Y.—"Construction and operation of a new continuous steelmaking facility," June, p 57

J

JAYARAMAN, V., KOINIS, F. J., GIPKO, M. A. and WHITEMAN, G. W.—"Jet impingement radiation (JIR) heating of steel strip," Jan., p 43
JOHANSSON, B., HERLITZ, H. G. and SANTEN, S. O.—"A new family of reduction processes based on plasma technology," March, p 39

K

KAISER, W. and BRAUER, H.—"A new mill for specialty steel precision bar products," June, p 72
KELVESJOE, K. H., PERSSON, S. O., SIXTENSSON, P. S., HOLMGREN, N. S. and PARKER, H. W.—"Revamping the 72-in. hot strip mill at SSAB, Domnarvet," Sept., p 45
KIMURA, H., INAZAKI, K., NANGAI, T., KUSANO, Y., OKUNO, Y. and FUJIMORI, Y.—"Blast furnace burden profile measurement by a giant pulse YAG laser," Jan., p 28
KNOX, T. J. and ANTHONY, K.—"Installation and operation of automatic shape control on the BSC Llanwern 4-stand tandem mill," March, p 31
KOCHER, A. C. and LAWLER, R. N.—"Reduction of electrode consumption by water cooling," July, p 21
KOINIS, F. J., JAYARAMAN, V., GIPKO, M. A. and WHITEMAN, G. W.—"Jet impingement radiation (JIR) heating of steel strip," Jan., p 43
KOJIMA, S., NAGAI, J., SUZUKI, K. and KOLLBERG, S.—"Steel flow control in a high-speed continuous slab caster using an electromagnetic brake," May, p 41
KOLB, W. A., CARTRIGHT, L. M., GORDON, R. A., HENN, H. J., WHITFIELD, C. and FORNADLEY, R. J.—"AISE software portability project—Review of step 1 report," Aug., p 46
KOLLBERG, S., NAGAI, J., SUZUKI, K. and KOJIMA, S.—"Steel flow control in a high-speed continuous slab caster using an electromagnetic brake," May, p 41
KOTRABA, N. L.—"Oxy-fuel burner experience at Georgetown Steel Corp.," Dec., p 17
KRUGER, B., PLESCHIUTSCHNIGG, F. P., WAGENER, E. and SCHREWE, H. F.—"Continuous casting of steel: The process for quality improvement," March, p 45
KUSANO, Y., INAZAKI, K., NANGAI, T., OKUNO, Y., FUJIMORI, Y. and KIMURA, H.—"Blast furnace burden profile measurement by a giant pulse YAG laser," Jan., p 28
KUTEMEYER, P. M. and NIESS, T. W.—"The Bischoff top gas process for relined blast furnaces," Jan., p 47

L

LABEE, C. J.—"Bethlehem's jumbo caster on stream at Steelton," March, p 59
LABEE, C. J. and SAMWAYS, N. L.—"Developments in the Iron and Steel Industry U.S. and Canada—1983," Feb., p D-1
LABEE, C. J.—"17th IISI annual meeting held in Vienna," Jan., p 69

# AVAILABLE AISE STANDARDS AND TECHNICAL REPORTS

## ASSOCIATION OF IRON AND STEEL ENGINEERS

**Suite 2350, Three Gateway Center, Pittsburgh, PA 15222**

May 1, 1984

These technical reports have been prepared by a representative committee comprised of users, manufacturers and the Association of Iron and Steel Engineers, who considered the technology available at the time of preparation. These reports do not represent either minimum acceptable standards or mandatory specifications. In addition, these reports are subject to compatibility with all relevant local, state and federal requirements.

6% Sales tax on all books to be delivered in Pennsylvania. Rates subject to change without notice. All prices U.S. funds. Quantity prices on request. Booksellers' discount of 20% in U.S. and Canada and 15% in other countries will be allowed on all purchases. Prices include book rate mailing.

## LIST OF SUBJECTS

### A

"Acid purification units replace crystallization system," July, p 63
"A-c main drives for rolling mills"—HAUSEN, G. and WOKUSCH, H. T., Nov., p 27
"A distributed computer control system for a steelmaking facility"—REED, D. P., March, p 21
"A future for McDonald Steel: Special hot rolled shapes," Jan., p 67
"AISE, 117 Members Complete 30 Years with," Jan., p 23
"AISE Annual Convention—Abstracts of Papers to be Presented, 1984," Sept., p T-39
"AISE Annual Convention—Chairmen, 1984," Sept., p T-33
"AISE Annual Convention—Ladies Program, 1984," Sept., p T-27
"AISE Annual Convention—Pictorial Review, 1984," Dec., p 62
"AISE Annual Convention—Technical Program, 1984," Sept., p T-23
"AISE Annual Convention—Welcome, 1984," Sept., p T-11
"AISE Awards Three Scholarships," July, p 65
"AISE Canton District Section Celebrates 25th Anniversary," March, p 70
"AISE District Chairmen, Vice Chairmen and Secretaries, 1984–1985," Oct., p 58
"AISE Kelly Award winners for 1983 selected," Oct., p 63
"AISE National Committees, 1984," Jan., p 18
"AISE Officers and Directors, 1984," Jan., p 14
"AISE President, David H. Samson Elected 1985," Oct., p 57
"AISE software portability project—Review of step 1 report"—CARTRIGHT, L. M., GORDON, R. A., HENN, H. J., KOLB, W. A., WHITFIELD, C. and FORNADLEY, R. J., Aug., p 46
"AISE Spring Conference—Abstracts of papers to be presented, 1984," April, p 73
"AISE Spring Conference—Chairmen, 1984," April, p 69
"AISE Spring Conference—Ladies Program, 1984," April, p 68
"AISE Spring Conference—Pictorial Review, 1984," July, p 66
"AISE Spring Conference—Technical Program, 1984," April, p 65
"AISI General Meeting held in New York," July, p 61
"A more realistic thermal model of refractory lining performance"—BLANCHARD, T. A. and SLEVIN, R. D., April, p 53
"A most modern pipe mill: U.S. Steel's Fairfield facility," Aug., p 73
"An advanced approach to the dynamic analysis of rolling mill foundations"—MONACO, G. and RUBLI, D., Oct., p 17
"Analysis of rolled bar profile from scanning laser gage diameter readings"—HARBECK, R. B., May, p 54
"An eccentric bottom tapping system—18-months experience"—BAARE, R.-D., OVERGAARD, J. and RASMUSSEN, E., July, p 27
"A new family of reduction processes based on plasma technology"—HERLITZ, H. G., JOHANSSON, B. and SANTEN, S. O., March, p 39
"A new mill for specialty steel precision bar products"—KAISER, W. and BRAUER, H., June, p 72
"Application of computers to the retrofitting of rolling mills"—ORTIZ, A. and HRUSKOCI, J. A., April, p 58
"A practical method for direct steel temperature measurement in reheat furnaces"—PEACOCK, G. R. and MARTOCCI, A. P., Nov., p 47
"Arc furnace emissions at Carpenter Technology, Closing in on"—HENNINGER, J. L., GEISER, L. H. and RESH, D. P., JR., March, p 26
"Arc furnace steel expected to continue, Growth of"—BROWN, J. W., April, p 88
"Armco's Butler works, Computer system for continuous caster at"—PYEWELL, R. E., Nov., p 40
"Armco's precision rotary forging machine improves quality," March, p 60
"Automatic gage control system with hydraulic actuators, Dynamic characteristics of"—GINZBURG, V. B., Jan., p 57
"Automatic shape control on the BSC Llanwern 4-stand tandem mill, Installation and operation of"—KNOX, T. J. and ANTHONY, K., March, p 31

### B

"Babcock & Wilcox installs new steelmaking facilities," Nov., p 64
"Bar products, A new mill for specialty steel precision"—KAISER, W. and BRAUER, H., June, p 72
"Bar profile from scanning laser gage diameter readings, Analysis of rolled"—HARBECK, R. B., May, p 54
"Bethlehem increases hot strip storage and shipping capabilities," Feb., p 48
"Bethlehem's coke-oven battery A at Sparrows Point, Control of"—MICHEL, A., HARRIS, R. and CARLSON, E. P., Feb., p 25
"Bethlehem's jumbo caster on stream at Steelton"—LABEE, C. J., March, p 59
"Bethlehem Steel, Low-cost, dynamic predictive maintenance system at"—FRADENECK, R. J., DAVIS, T. R. and ZACKEY, R. T., April, p 43
"Bethlehem to install casters at Sparrows Point and Burns Harbor," March, p 63
"Bethlehem venture to provide increased coal and coke," Dec., p 61
"Billet mill, Development of grooveless rolling for a"—YANAZAWA, T., HIRAI, N., TANAKA, T. and AOYAMA, K., Aug., p 27
"Bischoff top gas process for relined blast furnaces, The"—NIESS, T. W. and KUTEMEYER, P. M., Jan., p 47
"Blast furnace at Siderurgia Nacional, Seixal—A turnkey rebuild in record time, No. 1"—BASEVI, B. and CASTAGNA, M., Aug., p 21
"Blast furnace burden profile measurement by a giant pulse YAG laser"—INAZAKI, K., NANGAI, T., KUSANO, Y., OKUNO, Y., FUJIMORI, Y. and KIMURA, H., Jan., p 28
"Blast furnaces, The Bischoff top gas process for relined"—NIESS, T. W. and KUTEMEYER, P. M., Jan., p 47
"Blast furnace stoves and boilers, Eliminating pulsations in"—FAULKNER, L. L., Nov., p 34
"BOF with and without bottom stirring, Economics and technology of K-OBM and KMS compared to"—VON BOGDANDY, L., BROTZMANN, K., FRITZ, E. and SCHEMPP, E. G., May, p 21
"Boilers, Eliminating pulsations in blast furnace stoves and"—FAULKNER, L. L., Nov., p 34
"Bottom stirring, Economics and technology of K-OBM and KMS compared to BOF with and without"—VON BOGDANDY, L., BROTZMANN, K., FRITZ, E. and SCHEMPP, E. G., May, p 21
"Bottom stirring at J&L, Four thousand heats with"—DAUBY, P. H. and CUNNINGHAM, J. F., April, p 49
"Bottom tapping system—18-months experience, An eccentric"—BAARE, R.-D., OVERGAARD, J. and RASMUSSEN, E., July, p 27
"BSC Llanwern 4-stand tandem mill, Installation and operation of automatic shape control on the"—KNOX, T. J. and ANTHONY, K., March, p 31
"Burden profile measurement by a giant pulse YAG laser, Blast furnace"—INAZAKI, K., NANGAI, T., KUSANO, Y., OKUNO, Y., FUJIMORI, Y. and KIMURA, H., Jan., p 28
"Burner experience at Georgetown Steel Corp., Oxy-fuel"—KOTRABA, N. L., Dec., p 17
"Burns Harbor, Bethlehem to install casters at Sparrows Point and," March, p 63
"Burns Harbor's CHTL in full operation," May, p 61
"Butler works, Computer system for continuous caster at Armco's"—PYEWELL, R. E., Nov., p 40

### C

"Campbell works: A world class 16-in. seamless mill, LTV Steel"—RAU, R. J., BECK, C. K. and BROWN, D. F., Dec., p 35
"Cantilevered rolls, Roughing mills with"—FORNI, L. and AUGUSTI, A., Dec., p 23
"Canton District Section Celebrates 25th Anniversary, AISE," March, p 70
"Carpenter, Rotary forge in full operation at," Aug., p 68
"Carpenter Technology, Closing in on arc furnace emissions at"—HENNINGER, J. L., GEISER, L. H. and RESH, D. P., JR., March, p 26
"Caster at Lorain, U.S. Steel unveils 6-strand," July, p 58
"Caster hydraulics at Stelco's Lake Erie works"—FLETCHER, B., Oct., p 39
"Caster on stream at Cleveland, Republic's slab," Feb., p 44
"Caster on stream at Steelton, Bethlehem's jumbo"—LABEE, C. J., March, p 59

"Casters at Sparrows Point and Burns Harbor, Bethlehem to install," March, p 63
"Caster using an electromagnetic brake, Steel flow control in a high-speed continuous slab"—NAGAI, J., SUZUKI, K., KOJIMA, S. and KOLLBERG, S., May, p 41
"Chatter in cold rolling, Study and industrial control of"—CHEFNEUX, L., FISCHBACH, J.-P. and GOUZOU, J., Nov., p 17
"Chocks in rolling mills, Optical measurement procedure to determine position of rolls and"—HAYNES, C. G. and STANCKER, J. S., Jan., p 35
"Cleveland, Republic's slab caster on stream at," Feb., p 44
"Closing in on arc furnace emissions at Carpenter Technology"—HENNINGER, J. L., GEISER, L. H. and RESH, D. P., JR., March, p 26
"Coal-moisture control equipment on stream at Nippon Steel," April, p 89
"Coke-oven battery A at Sparrows Point, Control of Bethlehem's"—MICHEL, A., HARRIS, R. and CARLSON, E. P., Feb., p 25
"Coke-oven wall repair—Types and methods"—LEVIN, D. A. and FISCHER, H.-J., May, p 28
"Cold rolling, Study and industrial control of chatter in"—CHEFNEUX, L., FISCHBACH, J.-P. and GOUZOU, J., Nov., p 17
"Combustion stoves—An engineering and operational analysis, Dome"—DZERMEJKO, A. J. and SHELLENBERGER, D. J., Dec., p 47
"Commercial experience with diester based synthetic industrial lubricants"—BRODSKY, L. D., ZIELINSKI, J., PERRAULT, G. E. and SCHMAUS, R. H., Dec., p 41
"Computer control system for a steelmaking facility, A distributed"—REED, D. P., March, p 21
"Computer roll deflection program for predicting strip crown"—McDERMOTT, J. F., July, p 33
"Computers to the retrofitting of rolling mills, Application of"—ORTIZ, A. and HRUSKOCI, J. A., April, p 58
"Computer system for continuous caster at Armco's Butler works"—PYEWELL, R. E., Nov., p 40
"Computer systems in mini mills"—SCHROEDER, D. L., Nov., p 57
"Conservation and recovery of lubricating and hydraulic oils"—MIDDLETON, V. L., Nov., p 54
"Construction and operation of a new continuous steelmaking facility"—NAKAGAWA, R., YOSHIMATSU, S., IWASAKI, T. and FUJIKAWA, Y., June, p 57
"Consumption by water cooling, Reduction of electrode"—KOCHER, A. C. and LAWLER, R. N., July, p 21
"Continental, Morgan systems installed at Northwestern and," June, p 84
"Continental Steel completes $18.5 million expansion," Oct., p 70
"Continuous caster at Armco's Butler works, Computer system for"—PYEWELL, R. E., Nov., p 40
"Continuous caster water systems, Design considerations for"—SCHUMACHER, T. F., ZUGATES, T. B. and DELISIO, A. J., Feb., p 34
"Continuous casting—A technology for the future, Horizontal"—HAISSIG, M., June, p 65
"Continuous casting complex, LTV dedicates $170 million," Jan., p 76
"Continuous casting of billets and blooms, Rotary electromagnetic stirring for"—MULCAHY, J. A. and BEITELMAN, L., July, p 49
"Continuous casting of steel: The process for quality improvement"—KRUGER, B., PLESCHIUTSCHNIGG, F. P., WAGENER, E. and SCHREWE, H. F., March, p 45
"Continuous slab caster using an electromagnetic brake, Steel flow control in a high-speed"—NAGAI, J., SUZUKI, K., KOJIMA, S. and KOLLBERG, S., May, p 41
"Continuous slab casting facility at Indiana Harbor works, Installation and start-up of LTV's"—SAKALA, J. A. and WILLIAMS, R. W., JR., Sept., p 13
"Continuous slab casting plant, Rouge Steel breaks ground for," Sept., p 52
"Continuous steelmaking facility, Construction and operation of a new"—NAKAGAWA, R., YOSHIMATSU, S., IWASAKI, T. and FUJIKAWA, Y., June, p 57
"Control of Bethlehem's coke-oven battery A at Sparrows Point"—MICHEL, A., HARRIS, R. and CARLSON, E. P., Feb., p 25
"Control system for a hot strip mill, Feed forward"—WAGNER, F., ECK, H. L. and MILLERSCHOEN, C. W., Oct., p 44
"Crop shear, Microprocessor-based automation of rotary"—PEARSON, M. H. B., Dec., p 58
"Crop shear optimization and control"—LOOSE, P. W., July, p 41
"Crossed roll system, Shape and crown control mill—"—TSUKAMOTO, H. and MATSUMOTO, H., Oct., p 26
"Crown, Computer roll deflection program for predicting strip"—McDERMOTT, J. F., July, p 33
"Crown and flatness, Verification and applications of a model for predicting hot strip profile,"—SOMERS, R. R., PALLONE, G. T., McDERMOTT, J. F. and HARRIS, W. H., Sept., p 35
"Crown control mill—Crossed roll system, Shape and"—TSUKAMOTO, H. and MATSUMOTO, H., Oct., p 26
"Crown rolls—Characteristics, design and applications, Inflatable"—EIBE, W. W., Sept., p 20

**D**

"Data analysis, Management decision support through end-user"—MITCHELL, J. E. and CONROY, T. M., Jan., p 53
"David H. Samson Elected 1985 AISE President," Oct., p 57
"Design and application of hydraulic gap control systems"—HUZYAK, P. and GERBER, T. L., Aug., p 13
"Design considerations for continuous caster water systems"—SCHUMACHER, T. F., ZUGATES, T. B. and DELISIO, A. J., Feb., p 34
"Development expenditures to exceed $94 billion, U.S. research and," Feb., p 49
"Development of grooveless rolling for a billet mill"—YANAZAWA, T., HIRAI, N., TANAKA, T. and AOYAMA, K., Aug., p 27
"Developments in the Iron and Steel Industry U.S. and Canada—1983"—LABEE, C. J. and SAMWAYS, N. L., Feb., p D-1
"Diester based synthetic industrial lubricants, Commercial experience with"—BRODSKY, L. D., ZIELINSKI, J., PERRAULT, G. E. and SCHMAUS, R. H., Dec., p 41
"Dofasco: Canada's largest flat rolled producer"—SAMWAYS, N. L., Sept., p T-83
"Dofasco's new 68-in. hot strip mill: Planning, design and operating results"—TOURCHIN, R. W. and BEGGS, J. I., Sept., p T-111
"Dome combustion stoves—An engineering and operational analysis"—DZERMEJKO, A. J. and SHELLENBERGER, D. J., Dec., p 47
"Drives for rolling mills, A-c main"—HAUSEN, G. and WOKUSCH, H. T., Nov., p 27
"Dynamic characteristics of automatic gage control system with hydraulic actuators"—GINZBURG, V. B., Jan., p 57

**E**

"Eccentric bottom tapping system—18-months experience, An"—BAARE, R.-D., OVERGAARD, J. and RASMUSSEN, E., July, p 27
"Economics and technology of K-OBM and KMS compared to BOF with and without bottom stirring"—VON BOGDANDY, L., BROTZMANN, K., FRITZ, E. and SCHEMPP, E. G., May, p 21
"Electric arc furnace steelmaking with quasi-submerged arcs and foamy slags"—WUNSCHE, E. R. and SIMCOE, R., April, p 35
"Electrode consumption by water cooling, Reduction of"—KOCHER, A. C. and LAWLER, R. N., July, p 21
"Electrolytic galvanizing line at Sumitomo, Modern"—ISHIHARA, K., NISHIHARA, M., WATANABE, K. and FUJITA, S., Dec., p 28
"Electromagnetic stirring for continuous casting of billets and blooms, Rotary"—MULCAHY, J. A. and BEITELMAN, L., July, p 49
"Eliminating pulsations in blast furnace stoves and boilers"—FAULKNER, L. L., Nov., p 34
"Evaluation of recuperation and stock preheating for reducing fuel consumption in reheat furnaces"—SHEFSIEK, P., July, p 38
"Expansion, Continental Steel completes $18.5 million," Oct., p 70

**F**

"Faircrest facility better than 50% complete, Timken's new," Oct., p 65
"Fairfield facility, A most modern pipe mill: U.S. Steel's," Aug., p 73
"Feed forward control system for a hot strip mill"—WAGNER, F., ECK, H. L. and MILLERSCHOEN, C. W., Oct., p 44
"Flatness, Verification and applications of a model for predicting hot strip profile, crown and"—SOMERS, R. R., PALLONE, G. T., McDERMOTT, J. F. and HARRIS, W. H., Sept., p 35
"Foamy slags, Electric arc furnace steelmaking with quasi-submerged arcs and"—WUNSCHE, E. R. and SIMCOE, R., April, p 35
"Forge in full operation at Carpenter, Rotary," Aug., p 68
"Forging machine improves quality, Armco's precision rotary," March, p 60
"Foundations, An advanced approach to the dynamic analysis of rolling mill"—MONACO, G. and RUBLI, D., Oct., p 17
"Four thousand heats with bottom stirring at J&L"—DAUBY, P. H. and CUNNINGHAM, J. F., April, p 49
"Fuel consumption in reheat furnaces, Evaluation of recuperation and stock preheating for reducing"—SHEFSIEK, P., July, p 38

**G**

"Galvanizing line at Sumitomo, Modern electrolytic"—ISHIHARA, K., NISHIHARA, M., WATANABE, K. and FUJITA, S., Dec., p 28
"Galvanizing of steel sheet, New process for 1-side hot dip"—FROMMANN, K. M., MEUTHEN, B. and PAPPERT, W., May, p 35
"Gap control systems, Design and application of hydraulic"—HUZYAK, P. and GERBER, T. L., Aug., p 13
"Georgetown Steel Corp., Oxy-fuel burner experience at"—KOTRABA, N. L., Dec., p 17
"Grinder, Installation and operation of a high-performance roll"—GIGLIO, F. A. and STANCKER, J. S., Feb., p 32
"Grooveless rolling for a billet mill, Development of"—YANAZAWA, T., HIRAI, N., TANAKA, T. and AOYAMA, K., Aug., p 27
"Growth of arc furnace steel expected to continue"—BROWN, J. W., April, p 88

**H**

"Heating in soaking pits, Optimization of ingot"—RAO, T. R. S., UPTON, E. A., RUPAR, D. L. and ELLIS, R., Oct., p 34
"Heating of steel strip, Jet impingement radiation (JIR)"—JAYARAMAN, V., KOINIS, F. J., GIPKO, M. A. and WHITEMAN, G. W., Jan., p 43
"Horizontal continuous casting—A technology for the future"—HAISSIG, M., June, p 65
"Hot strip mill, Feed forward control system for a"—WAGNER, F., ECK, H. L. and MILLERSCHOEN, C. W., Oct., p 44
"Hot strip mill at SSAB, Domnarvet, Revamping the 72-in."—KELVESJOE, K. H., PERSSON, S. O., SIXTENSSON, P. S., HOLMGREN, N. S. and PARKER, H. W., Sept., p 45
"Hot strip mill in operation at Stelco, New," March, p 58
"Hot strip mill: Planning, design and operating results, Dofasco's new 68-in."—TOURCHIN, R. W. and BEGGS, J. I., Sept., p T-111
"Hot strip profile, crown and flatness, Verification and applications of a model for predicting"—SOMERS, R. R., PALLONE, G. T., McDERMOTT, J. F. and HARRIS, W. H., Sept., p 35
"Hot strip storage and shipping capabilities, Bethlehem increases," Feb., p 48
"Hydraulic actuators, Dynamic characteristics of automatic gage control system with"—GINZBURG, V. B., Jan., p 57
"Hydraulic gap control systems, Design and application of"—HUZYAK, P. and GERBER, T. L., Aug., p 13
"Hydraulic oils, Conservation and recovery of lubricating and"—MIDDLETON, V. L., Nov., p 54
"Hydraulics at Stelco's Lake Erie works, Caster"—FLETCHER, B., Oct., p 39
"HYDROPLATE system, Quality control and production optimization in plate mills using the"—MOREL, M., MONTASTIER, J. G., BRENOT, M. A. and CHABOUD, M. F., May, p 48

**I**

"IISI-18 annual conference held in U.S."—SAMWAYS, N. L., Dec., p 54
"IISI annual meeting held in Vienna, 17th"—LABEE, C. J., Jan., p 69
"Imaging and classification of hot steel surface features, Real time"—BONFIGLIO, A. J., PRELLWITZ, S. B. and SCHINDLER, D. G., Oct., p 49
"Indiana Harbor works, Installation and start-up of LTV's continuous slab casting facility at"—SAKALA, J. A. and WILLIAMS, R. W., JR., Sept., p 13
"Inflatable crown rolls—Characteristics, design and applications"—EIBE, W. W., Sept., p 20
"Installation and operation of a high-performance roll grinder"—GIGLIO, F. A. and STANCKER, J. S., Feb., p 32
"Installation and operation of automatic shape control on the BSC Llanwern 4-stand tandem mill"—KNOX, T. J. and ANTHONY, K., March, p 31
"Installation and start-up of LTV's continuous slab casting facility at Indiana Harbor works"—SAKALA, J. A. and WILLIAMS, R. W., JR., Sept., p 13
"Iron and Steel Industry U.S. and Canada—1983, Developments in the"—LABEE, C. J. and SAMWAYS, N. L., Feb., p D-1
"Iron and steel technology and the marketplace"—ALLAN, J. D., Dec., p 20
"Ironmaking, The KR process: A new development in"—BRAUN, H.-G. and MATHEWS, W., Aug., p 41

**J**

"Jet impingement radiation (JIR) heating of steel strip"—JAYARAMAN, V., KOINIS, F. J., GIPKO, M. A. and WHITEMAN, G. W., Jan., p 43
"J&L, Four thousand heats with bottom stirring at"—DAUBY, P. H. and CUNNINGHAM, J. F., April, p 49

**K**

"Kentucky Electric Steel—A new approach," Feb., p 46
"KMS compared to BOF with and without bottom stirring, Economics and technology of K-OBM and"—VON BOGDANDY, L., BROTZMANN, K., FRITZ, E. and SCHEMPP, E. G., May, p 21
"K-OBM and KMS compared to BOF with and without bottom stirring, Economics and technology of"—VON BOGDANDY, L., BROTZMANN, K., FRITZ, E. and SCHEMPP, E. G., May, p 21
"KR process: A new development in ironmaking, The"—BRAUN, H.-G. and MATHEWS, W., Aug., p 41

**L**

"Ladles lined with high-alumina refractories, Structural behavior of teeming"—SCHACHT, C. A. and ABAROTIN, E. V., Aug., p 33
"Lake Erie works, Caster hydraulics at Stelco's"—FLETCHER, B., Oct., p 39
"Laser, Blast furnace burden profile measurement by a giant pulse YAG"—INAZAKI, K., NANGAI, T., KUSANO, Y., OKUNO, Y., FUJIMORI, Y. and KIMURA, H., Jan., p 28
"Laser gage diameter readings, Analysis of rolled bar profile from scanning"—HARBECK, R. B., May, p 54
"LD capacity stagnant: Process evolution continues"—STONE, J. K. and MICHAELIS, E. M., Sept., p 27
"Llanwern 4-stand tandem mill, Installation and operation of automatic shape control on the BSC"—KNOX, T. J. and ANTHONY, K., March, p 31
"Lorain, U.S. Steel unveils 6-strand caster at," July, p 58
"Low-cost, dynamic predictive maintenance system at Bethlehem Steel"—FRADENECK, R. J., DAVIS, T. R. and ZACKEY, R. T., April, p 43
"LTV dedicates $170 million continuous casting complex," Jan., p 76
"LTV's continuous slab casting facility at Indiana Harbor works, Installation and start-up of"—SAKALA, J. A. and WILLIAMS, R. W., JR., Sept., p 13
"LTV Steel Campbell works: A world class 16-in. seamless mill"—RAU, R. J., BECK, C. K. and BROWN, D. F., Dec., p 35
"Lubricants, Commercial experience with diester based synthetic industrial"—BRODSKY, L. D., ZIELINSKI, J., PERRAULT, G. E. and SCHMAUS, R. H., Dec., p 41
"Lubricating and hydraulic oils, Conservation and recovery of"—MIDDLETON, V. L., Nov., p 54
"Lubrication by spindle-mounted gear-type lubricator, Spindle slipper"—WALTER, R. J., Jan., p 39

**M**

"Maintenance system at Bethlehem Steel, Low-cost, dynamic predictive"—FRADENECK, R. J., DAVIS, T. R. and ZACKEY, R. T., April, p 43
"Management decision support through end-user data analysis"—MITCHELL, J. E. and CONROY, T. M., Jan., p 53
"McDonald Steel: Special hot rolled shapes, A future for," Jan., p 67
"Microprocessor-based automation of rotary crop shear"—PEARSON, M. H. B., Dec., p 58
"Mini-midi mills—U.S., Canada and Mexico"—NEMETH, E. L., June, p 25
"Mini mills, Computer systems in"—SCHROEDER, D. L., Nov., p 57
"Model for predicting hot strip profile, crown and flatness, Verification and applications of a"—SOMERS, R. R., PALLONE, G. T., McDERMOTT, J. F. and HARRIS, W. H., Sept., p 35
"Model of refractory lining performance, A more realistic thermal"—BLANCHARD, T. A. and SLEVIN, R. D., April, p 53
"Modern electrolytic galvanizing line at Sumitomo"—ISHIHARA, K., NISHIHARA, M., WATANABE, K. and FUJITA, S., Dec., p 28
"Moisture control equipment on stream at Nippon Steel, Coal-," April, p 89
"Mold assembly helps set production records, Variable width," June, p 83
"Morgan systems installed at Northwestern and Continental," June, p 84

**N**

"Nacional, Seixal—A turnkey rebuild in record time, No. 1 blast furnace at Siderurgia"—BASEVI, B. and CASTAGNA, M., Aug., p 21
"New hot strip mill in operation at Stelco," March, p 58
"New process for 1-side hot dip galvanizing of steel sheet"—FROMMANN, K. M., MEUTHEN, B. and PAPPERT, W., May, p 35
"Nippon Steel, Coal-moisture control equipment on stream at," April, p 89
"No. 1 blast furnace at Siderurgia Nacional, Seixal—A turnkey rebuild in record time"—BASEVI, B. and CASTAGNA, M., Aug., p 21
"Northwestern and Continental, Morgan systems installed at," June, p 84

**O**

"Optical measurement procedure to determine position of rolls and chocks in rolling mills"—HAYNES, C. G. and STANCKER, J. S., Jan., p 35
"Optimization of ingot heating in soaking pits"—RAO, T. R. S., UPTON, E. A., RUPAR, D. L. and ELLIS, R., Oct., p 34
"Oxy-fuel burner experience at Georgetown Steel Corp."—KOTRABA, N. L., Dec., p 17

**P**

"Pictorial Review, 1984 AISE Annual Convention—," Dec., p 62
"Pictorial Review, 1984 AISE Spring Conference—," July, p 66
"Pipe mill: U.S. Steel's Fairfield facility, A most modern," Aug., p 73
"Plasma Energy Corp., Testing facility commissioned by," May, p 64
"Plasma technology, A new family of reduction processes based on"—HERLITZ, H. G., JOHANSSON, B. and SANTEN, S. O., March, p 39
"Plate mills using the HYDROPLATE system, Quality control and production optimization in"—MOREL, M., MONTASTIER, J. G., BRENOT, M. A. and CHABOUD, M. F., May, p 48
